DETAILED ACTION

Summary

On March 24, 2004, an Office Action was sent to the Applicant rejecting claims 1-86. On August 27, 2004, the Applicant responded by amending claims 1 and 41 and canceling claims 10-11, 36-37, 51-52, and 76-77.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The rejection set forth in the previous Office Action, mailed on March 24, 2004, has been withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5, 8-9, 12-15, 18-35, 38-45, 48-50, 53-55, 58-75, and 78-85 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mandler in view of Walker (6,267,292).

With regard to the amendment, Mandler discloses the invention substantially as claimed; however, Mandler does not disclose a trade credit value that is transferable. Walker teaches a method and corresponding system wherein credit lines may be transferred (col.4, lines 23-40). It would have been obvious to one having ordinary skill

Art Unit: 3624

in the art at the time the invention was made to incorporate a credit line that may be transferred, as taught by Walker into the invention disclosed by Mandler, to allow for the user to settle another transaction.

Claims 6-7, 16-17, 46-47, 56-57, and 86 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mandler and Walker as applied to claims 5, 45, 55, and 81 above, and in further view of Conklin (6,338,050), the rejection set forth in the previous Office Action. Walker has been incorporated in response to the amendment.

Response to Arguments

Applicant's arguments with respect to claims 1-9, 12-35, 38-50, 53-75, and 78-86 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3624

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
